

T2000 EIR Request – Schedule of ASTs Provided by Highways Agency

The table below lists the Appraisal Summary Tables (ASTs) provided.

Each scheme within the Targeted Programme of Improvements (TPI) is listed in the order that they entered the programme. Of the 113 schemes, 6 schemes are no longer to be progressed and one has been transferred to Transport for London.

For a very few schemes no freestanding programme entry AST is available. For example, TPI 83 (A505 Dunstable Northern Bypass (A5-M1 Link) entered the programme with TPI 77 (M1 J6a-J10) and thus a separate AST used for TPI entry is not available. TPIs 38-41 entered the programme immediately following the Roads Review with full information though not as formal ASTs. A single route wide AST was prepared under the Swymbus initiative to support entry for TPI schemes 105-111. Similarly, a single AST was used to support TPI 112 and 113.

In addition to the AST used to support entry to the programme, the latest AST used to support either Public Consultation; Preferred Route Announcement; Environmental Statement/Draft Orders or Public Inquiry is provided where it has been prepared for the scheme.

For many of the early schemes, entry to the TPI was followed by construction with no further key events requiring an AST. Thus no further ASTs were prepared. This is illustrated by shading the cell in the table.

Of schemes in preparation, further ASTs will be being prepared in the coming months and years. When the ASTs for these schemes become available they should be published on the Highways Agency website.

Schedule of ASTs Being Made Public

TPI No.	Scheme Name	AST at TPI Entry	Latest Public AST	Comments
1	A1 Willowburn – Denwick Improvement	Provided.	No further ASTs prepared.	TPI entry is from Roads Review.
2	A1(M) Ferrybridge-Hook Moor	Provided.	No further ASTs prepared.	TPI entry is from Roads Review.
3	A1(M) Wetherby-Walshford	Provided.	No further ASTs prepared.	TPI entry is from Roads Review.
4	A2 Bean - Cobham Phase 1 (Bean – Tollgate)	Provided.	Provided.	TPI entry is from Roads Review. Late AST is Environmental Statement /Draft Orders AST.
5	A2 Bean - Cobham Phase 2 (Pepperhill – Cobham)	Provided.	Provided.	TPI entry is from Roads Review. Late AST prior to construction.
