25 June 2008

Dear [Name removed under the Data Protection Act]

**A30/A35 EXETER TO BERE REGIS  
WINTER MAINTENANCE**

Thank you for your letter dated 11 June 2008 and for clarifying the location concerning your information request.

I can confirm that the A30/A35 Exeter to Bere Regis Trunk Road was being maintained by the Highways Agency through its Service Provider in accordance with the Winter Service Plan throughout the period from Saturday 8 December to Wednesday 19 December 2007.

The section of the route that you have identified in your letter was treated with salt on the dates shown on the attached records of salt treatment.

The Highways Agency is the Trunk Road Authority, acting on behalf of the Secretary of State. Connect A30/A35 Ltd, who maintains and operates the Trunk Road as part of a Public Private Partnership with the Highways Agency, has a contract with SWHBBISjv who are responsible for treating the road where appropriate.

I have attached a copy of the records showing when the section of the route in question was treated during the period you have specified, along with the amount of salt used in each treatment.

Yours sincerely

[Name removed under the Data Protection Act]
