

A419 Commonhead Junction Improvement

Forthcoming Works to the Overpass at Commonhead Roundabout

As you will be aware construction of the overpass is progressing towards completion in early 2007.

As part of these works it is necessary to carry out surfacing works to the existing carriageway. In order to minimise disruption to traffic and to ensure the safety of our workforce this operation has to be carried out under night time lane closures.

Each night will comprise 2 phases. The first phase involves removal of the existing carriageway. This operation will generate more noise than normal from our site and we will therefore aim to complete this operation by 23.00. The second phase will occupy the remainder of the night and will be spent resurfacing the carriageway.

The planned dates for this work are listed below:

Location	Operation Date	Times
M4 to Commonhead	16 th - 20 th October	21:00- 05:00
Commonhead to Dorcan	6 th - 10 th November	21:00- 05:00

These may be subject to late changes due to weather or factors outside the control of the site.

We apologise for any inconvenience that these works may cause and assure you that we will endeavour to keep the disturbance to a minimum at all times.

Should you require further information regarding the scheme or if you have any concerns during the construction works then please contact the site Public Liaison Officer on 07748 140 538.
